Some persons who have put real money into unfortunate ventures have wondered at times what receivers really do for all the fees they vices as "worth" all he can get for them. But are receivers always-or often-worth as much as they cost? "The law allows it, and the court decrees it." That is the conventional answer. Yet some rebellious minds still inquire why a receivership is always regarded as such a desirable appointment? The task of cleaning up a financial wreck would seem hard, Ye' receiverships never go a-begging. They are posts of honor, also of 'fat jobs." Mr. Mudge's effort may have opened some crevices in the walls through which may come the light of a day in the sweet by-and-by when receiverships will be less polite-

The Evening Story

A Business Deal. (By Louise Oliver.)

Richard Adrian was a rich bachelor. That was why he was on the list of every concern in America that had something to sell. His daily mail was chock full of advertisements of all kinds, from pastry flour to gold mines. And he was hourly besieged by agents of both sexes who insisted upon showing him "only editions" and improved razors.

Mike, the office boy, had been superseded by a grown man, who was better able by muscular prowess to dissuade too persistent males from row for Albuquerque, N. M., where she seeing the boss. paper, but of the Capital itself.

Here is what the latter paper said in its issue of last Sunday morning:

"One recently published article speaks of the cosy little room known as the members' parlor as "Cupid's Parlor' and goes on to say that it has been banished from the building, leaving the girls no suitable place to see gentlemen callers. This is a mistake. The room is at the disposal of the girls at any time, as is also the lobby and the large parlor.

"Another misleading article asserts that no ice water can be taken to their rooms by the girls. There is always ice water in a tank in the dining room and any girl who wishes may carry a pitcher to her room.

"College permants and mistures are

who wishes may carry a pitcher to her room.

"College pennants and pictures are banished from the walls." This little bit of news is not correct as at the present time one room is decorated with nine pennants and another with sixteen pennants and another with sixteen pennants and another with sixteen pennants and pictures. The girls were asked to use pins and not tacks in putting up the pennants on the newly tinted walls.

"The building is open to the public from 7:00 a. m. to 10:30 p. m., and for this reason the girls boarding in the house were asked not to appear on the first floor in breakfast caps and morning dresses. The third floor has no such restrictions.

"Every properly conducted institution must have rules and regulations and the Young Women's Christian Association is not exempt; but as these rules have been made with the greatest care and consideration for the girls the association is trying to aid, it is unjust for any article to find its way into print which gives a false impression of the Young Women's Christian Association and its work in Topeka."
